# Building a Children's Literature Collection:

*A Suggested Basic Reference  
Collection for Academic Libraries*

by  
Harriet B. Quimby & Clara O. Jackson

and

*A Suggested Basic Collection  
of Children's Books*

by  
Rosemary Weber

These two bibliographical essays, first published in CHOICE in November and December 1974, are designed as a guide for those librarians who wish to remodel and update their collections of children's literature. They present materials related to all aspects of that literature as currently studied in colleges and universities today. Harriet Quimby and Clara Jackson tell how to go about building a good children's literature collection, while Rosemary Weber suggests a basic list of children's books. Containing over 1,085 titles, this publication includes for the first time an Author and Title Index as well as complete bibliographic information for the titles cited. All titles listed are currently in print unless otherwise indicated.

**These are three faces of a balanced library—  
one that meets the needs of all of its patrons.  
How? Through three publications from THE NEW YORK TIMES—  
THE BOOK REVIEW, THE FILM REVIEWS, and THE THEATER  
REVIEWS.**

Seven and a half decades of literary criticism. For more than 75 years, *THE NEW YORK TIMES BOOK REVIEW* (1896-1974) has provided news of books, authors and the publishing world, together with evaluations of new books that both reflect and influence literary trends. Here is the most comprehensive coverage of modern literary history and criticism available today—more than 200,000 critiques, letters and essays—republished on durable paper and bound in buckram. *THE NEW YORK TIMES BOOK REVIEW* guarantees a permanent, on-going legacy of literary information to generations of library users.

The one-million-entry, 7,500 pages index is arranged by author, title, subject, byline and literary category. "Indispensable to all medium and large public libraries and to all academic libraries."—CHOICE

Since 1913—over 20,000 films ago—The New York Times reviewers have influenced the movie-going habits of a nation. *THE NEW YORK TIMES FILM REVIEWS* (1913-1974) contains every review arranged chronologically in eight volumes plus an index volume. "For both the dedicated historian and the casual film buff, the details of when a film was made, who got credit, and which studio released it are constant questions. *THE NEW YORK TIMES* goes a long way toward answering most such questions."—CHOICE

No other reference contains such a direct, easy-to-follow multi-access index. Over 250,000 entries enable a researcher to pinpoint any film or trace the career of any film figure. A portrait gallery identifies 2,000 actors.

With *THE NEW YORK TIMES THEATER REVIEWS* (1870-1974) on your reference shelves, your library's coverage of the performing arts in America is complete. These eighteen volumes record the brilliant and candid critiques of famous professionals like Alexander Woolcott, Brooks Atkinson, Walter Kerr and Clive Barnes. The coverage is both national and international. *THE NEW YORK TIMES THEATER REVIEWS* provides the most comprehensive source of information on American theater currently available—well over 33,000 critiques that appeared in the daily and Sunday editions of *The Times* since 1870—covering plays, musicals, burlesque and vaudeville.

A detailed index provides a rapid guide to locating factual information about the theater and specific

reviews quickly. The entries are arranged according to name of actor, author, director, etc.; title of play; and name of production company.

Complete sets of the *Book Review*, *Film Reviews* and *Theater Reviews* are available. Individual volumes may also be purchased.

Also available—a new one-volume reference—*THE TONY AWARD: A Complete Listing With a History of the American Theatre Wing*.
